Application Idea Summary

Our application, MusicWe, is a music-focused web platform designed to allow users to explore songs, artists, and playlists while interacting with other users. The system supports a community-driven environment where users can create playlists, leave comments, and engage with shared music content

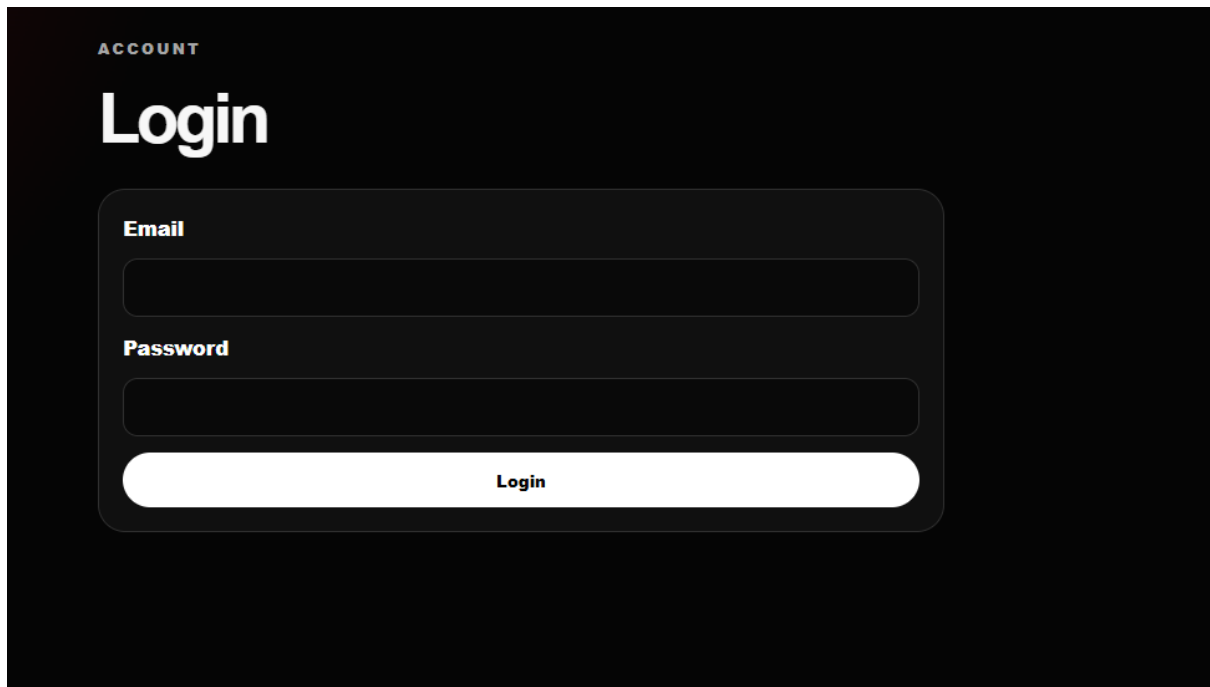

User Stories

The following user stories were implemented during Sprint 4:

- As a user, I want to register and log into the system so that I can access personalised features.
- As a user, I want to view songs and artists so that I can explore music content.
- As a user, I want to view detailed information about a song or artist so that I can learn more about them.
- As a user, I want to search for songs or artists so that I can quickly find specific content.
- As a user, I want to create and manage playlists so that I can organise my favourite music.
- As a user, I want to view playlists created by myself or others so that I can discover new music.
- As a user, I want to leave comments so that I can interact with other users and share opinions.
- As a user, I want to edit my profile so that I can update my personal information.
- As a user, I want to view other user profiles so that I can explore their activity.
- As a user, I want to reply to comments so that I can have discussions with other users.

screenshots

Login page/register page

A dark-themed login form. At the top left, the word "ACCOUNT" is written in small, light gray capital letters. Below it, the word "Login" is displayed in a large, bold, white sans-serif font. The form itself is a rounded rectangle with a dark gray background. It contains two input fields: the first is labeled "Email" in bold white text, and the second is labeled "Password" in bold white text. Below these fields is a white, rounded rectangular button with the word "Login" in black text.

Login

This page allows users to log into their account securely using their credentials.

A dark-themed register form. At the top left, the word "ACCOUNT" is written in small, light gray capital letters. Below it, the word "Register" is displayed in a large, bold, white sans-serif font. The form is a rounded rectangle with a dark gray background. It contains seven input fields, each with a label in bold white text: "Email", "Password", "Username", "Real name", "Age", "Favourite genre", and "Bio". The "Bio" field is a larger text area.
